## 9 | LAND USE

regulate and maintain the character of the zoning districts. The zoning districts have statements of purpose and intent that align with the descriptions of land use designations in the community plans of the County. For each community plan land use designation, there may be one or more zoning districts that establish uses consistent with those envisioned by the community plan. In the event that a land use designation does not have a typical, matching or corresponding zoning district, a new zoning district(s) will be established in the Maui County Code.

In lieu of repeating in detail the allowable land uses within the Lāna`i community plan area, Appendix 9.2, Comparison of Lāna`i Community Plan Designations and Typical County Zoning Districts, sets forth each community plan land use designation applicable on Lāna`i and identifies the zoning district or districts that would typically allow the uses envisioned by the community plan. [Unless specifically prohibited, the uses permitted by zoning and the standards applicable to the typical zoning district apply to the corresponding community plan designations.]

The Lāna`i community plan land use map (collectively, Maps 9.2 through 9.6) has been prepared in compliance with the requirements of Sections 2.80B.070(A) and (E)(14), MCC. For site-specific determinations of community plan land use designations and zoning, please contact the Department of Planning, Zoning Administration and Enforcement Division.

## Appendix 9.2 Comparison of Lāna`i Community Plan Land Use Designations and Typical County Zoning District

In lieu of repeating in detail the allowable land uses within the Lāna`i community plan area, this Appendix 9.2 sets forth each community plan land use designation and identifies the zoning district or districts that would typically allow the uses envisioned by the community plan. In the event that a land use designation does not have a typical, matching or corresponding zoning district, a new zoning district(s) will be established in the Maui County Code.

If a property’s community plan land use designation and zoning correspond as listed in the table below, the community plan land use designation does not limit any use established by the property’s zoning unless the community plan specifically prohibits or restricts a particular use. Pursuant to Section 2.80B.030(B), MCC, if a property’s community plan land use designation and zoning do not correspond as listed in the table below, the property’s zoning regulates the uses and standards allowed on the property when only ministerial permits or approvals by government agencies are required. Discretionary actions by government agencies, such as a change in zoning, shall conform to the community plan; during the change in zoning process, the typical zoning districts listed below should be established to correspond with and implement the community plan.
