To the Honorable Mike White, Council Chair,  
and Members of the County Council  
County of Maui, Hawai'i

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Maui, State of Hawai'i (County) for the year ended June 30, 2014. We have also audited the financial statements of the Department of Water Supply of the County of Maui (the Department), a proprietary fund of the County for the fiscal year ended June 30, 2014. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, Government Auditing Standards and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated August 25, 2014. Professional standards also require that we communicate to you the following information related to our audit.

#### Significant Audit Findings

##### Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note 1 to the financial statements. The County adopted the provisions of Government Accounting Standards Board (GASB) Statement No. 65 *Items Previously Reported as Assets and Liabilities*. Accordingly, the cumulative effect of the accounting change as of the beginning of the year is reported in Note 14 to the financial statements. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the County's financial statements were:

- Estimate of the allowance for doubtful accounts
- Estimate of the useful lives of the County's capital assets used to compute depreciation expense
- Estimate of the liability for postretirement benefits other than pensions
- Estimate of the loss reserves for claims and judgments
- Estimate of the landfill closure and post-closure cost liability

Management's estimate of the allowance for doubtful accounts is based on an analysis of past due accounts, the County's historical experience with the account, and other relevant factors to arrive at an overall assessment of whether the past due accounts will be collected. We evaluated the key factors and assumptions used to develop the estimate of the allowance for doubtful accounts in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the depreciation recorded on capital assets is based in part on the estimated useful lives of those capital assets. We evaluated the key factors and assumptions used to develop the estimated useful lives used to depreciate the County's capital assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the liability for postretirement benefits other than pensions was determined using an actuarial calculations. We evaluated the key factors and assumptions used to compute the liability for postretirement benefits other than pensions in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the claims and judgments liability is based on the assessment of the County's legal counsel and an analysis of workers' compensation, automobile and general liability insurance claims. We evaluated the key factors and assumptions used to develop the estimate of the claims and judgments liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the landfill closure and post-closure cost liability was determined by the County's engineers and the third party contractor. We evaluated the key factors and assumptions used to develop the liability in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

#### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management.

The following misstatement was detected as a result of audit procedures and corrected by management: Adjustment for trust and agency fees previous reported in the trust and agency fund.

The following misstatements were detected as a result of audit procedures and were not corrected by management: 1) Adjustment to record accounts payable (Department of Water Supply and County). 2) Adjustment to record an allowance for an older grant receivable balance (County). 3) Adjustment of the capital outlays and construction-in-progress balances (Department of Water Supply and County). Management has determined that the effect is immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

*Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the management representation letter dated January 22, 2015.

*Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

*Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

*Other Matters*

We applied certain limited procedures to the following which are required supplementary information (RSI) that supplements the basic financial statements:

- Management's Discussion and Analysis (MD&A),
- Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund
- Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - Highway Fund
- Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - Sewer Fund
- Notes to the Budgetary Comparison Schedules
- Schedule of Funding Progress for the EUTF

## N&K CPAs, Inc.

ACCOUNTANTS | CONSULTANTS

Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on Combining Statements; as well as Schedules of Revenues – Budget to Actual; Schedules of Appropriations, Expenditures, and Encumbrances; and Capital Assets Used in the Operations of Governmental Activities, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the Statistical section, which accompanies the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

## SINGLE AUDIT REPORT

FOR THE FISCAL YEAR ENDED  
JUNE 30, 2014

AMERICAN SAVINGS BANK TOWER  
1001 BISHOP STREET, SUITE 1700  
HONOLULU, HAWAII 96813-3696

March 12, 2015

To the Council Chair,  
and Members of the Council  
County of Maui  
Wailuku, Maui, Hawai'i

We have completed our financial audit of the basic financial statements of the County of Maui, Hawai'i (the County), as of and for the fiscal year ended June 30, 2014. Our report containing our opinions on those basic financial statements is included in the County's *Comprehensive Annual Financial Report*. We submit herein our reports on the County's internal control over financial reporting and compliance, the County's compliance with requirements that could have a direct and material effect on each of its major federal programs, and our report on the schedule of expenditures of federal awards.

### **OBJECTIVES OF THE AUDIT**

The primary purpose of our audit was to form opinions on the fairness of the presentation of the County's basic financial statements as of and for the fiscal year ended June 30, 2014, and to comply with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, which establishes audit requirements for state and local governments that receive federal financial assistance. More specifically, the objectives of the audit were as follows:

1. To provide a basis for opinions on the fairness of the presentation of the County's financial statements.
2. To determine whether expenditures and other disbursements have been made and all revenues and other receipts to which the County is entitled have been collected and accounted for in accordance with the laws, rules and regulations, administrative directives, policies and procedures of the County, the State of Hawai'i and the federal government (where applicable).
3. To determine whether the County has established sufficient internal controls to properly manage federal financial assistance programs and to comply with the applicable laws and regulations.
4. To determine whether the County has complied with the laws and regulations that may have a material effect on the financial statements and on its major federal financial assistance programs.

## SCOPE OF THE AUDIT

Our audit was performed in accordance with auditing standards generally accepted in the United States of America as prescribed by the American Institute of Certified Public Accountants; *Government Auditing Standards*, issued by the Comptroller General of the United States; and the provisions of OMB Circular A-133. The scope of our audit included an examination of the transactions and accounting records of the County for the fiscal year ended June 30, 2014.

## ORGANIZATION OF THE REPORT

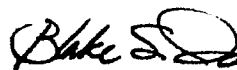

This report is presented in five parts as follows:

- Part I - Our report on internal control over financial reporting and on compliance and other matters.
- Part II - Our report on compliance with requirements that could have a direct and material effect on each major program and on internal control over compliance, and report on the schedule of expenditures of federal awards.
- Part III - The schedule of findings and questioned costs.
- Part IV - The summary schedule of prior audit findings.
- Part V - The corrective action plan.

We wish to express our sincere appreciation for the excellent cooperation and assistance extended by the staff of the County.

Sincerely,

**REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**INDEPENDENT AUDITOR'S REPORT**

To the Council Chair  
and Members of the Council  
County of Maui  
Wailuku, Maui, Hawai'i

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Maui, Hawai'i (the County), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated January 22, 2015.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be a material weakness and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material

weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2014-007 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2014-001 through 2014-006 and 2014-008 through 2014-011 to be significant deficiencies.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **The County's Response to Findings**

The County's response to the findings identified in our audit is described in Part V, Corrective Action Plan of this report. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT**

To the Council Chair,  
and Members of the Council  
County of Maui  
Wailuku, Maui, Hawai'i

**Report on Compliance for Each Major Federal Program**

We have audited the County of Maui's (the County) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2014. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

The County's management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

### **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified

certain deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2014-012 and 2014-013 that we consider to be significant deficiencies.

The County's response to the internal controls over compliance findings identified in our audit is described in Part V, Corrective Action Plan of this report. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated January 22, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**Fiscal Year Ended June 30, 2014**

**NOTE 1 - GENERAL**

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance of the County of Maui, State of Hawaii (the County). The reporting entity of the County is defined in Note 1 to the County's basic financial statements. All federal financial assistance that passed through other government agencies is included in the schedule. A program or award may extend over grant periods differing from the County's fiscal year.

**NOTE 2 - BASIS OF ACCOUNTING**

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the County's financial statements.

**NOTE 3 - RELATIONSHIP TO FINANCIAL STATEMENTS**

Federal financial assistance revenues are reported in the County's financial statements. Actual expenditures related to the major programs have been reconciled to the accounting records underlying the County's financial statements.

**NOTE 4 - RELATIONSHIP TO FEDERAL FINANCIAL REPORTS**

The amounts reported in the accompanying schedule of expenditures of federal awards have been reconciled to the amounts reported in the related financial reports of the respective programs. Reconciling items may arise from differences in the basis of accounting.

**2014-001 Internal Controls Over Automated Payroll Processing System - Significant Deficiency**

**Condition:** Over the past four fiscal years, the Department of Finance has been working to complete the conversion to a new automated payroll processing system. Included in the conversion to this new automated payroll processing system was a move toward a fully automated employee time recording system. This conversion also required a change from a more manual, centralized time recording and monitoring system at the Payroll Section to a more decentralized system, with payroll responsibilities disbursed out to the individual departments.

Individual departments have either switched to an automated time recording system or have maintained a manual time keeping system for all or some employees based on their operations. This practice has continued to produce inconsistencies between departments which resulted in the following conditions noted during our review of 60 payroll files.

- There were 8 instances (out of 42 samples) where a manual time sheet did not have an approval by the employee or supervisor/department head or the supervisor/department head signed for the employee.
- There were 2 instances (out of 18 samples) where an automated time card did not have an approval by the employee or supervisor/department head.

During our fieldwork, we were informed that the Department of Finance distributed and published a new payroll policies and procedures manual on the intranet effective June 1, 2014. This manual indicates the roles and responsibilities of the departments/agencies and employees, required forms to be used and procedures to be followed with regards to manual timesheets and automated timesheets. There are certain departments/agencies that will not be able to fully convert to the automated employee time recording system based on logistics and possible bargaining unit restrictions. However, it is still the Department of Finance's goal to convert more departments to the automated payroll processing system by providing continuous training and follow-up sessions with each department and its "Super-Users."

**Criteria:** A control environment should exist to ensure the completeness and accuracy of the County's payroll processing system. Employee time records, whether manual timesheets or automated time records, should be approved by the employee and their supervisor and properly support the payroll expenditures reflected in the automated pay register used to record expenditures into the County's general ledger.

**Internal Control Findings**

**2014-001 Internal Controls Over Automated Payroll Processing System - Significant Deficiency (Continued)**

**Cause:** The change from a centralized to a decentralized system for capturing employee time has created a new internal control environment requiring changes to existing internal controls and implementation of new internal controls to deal with this new control environment.

**Effect:** The lack of sufficient internal controls to ensure the completeness and accuracy of the payroll records could lead to incorrect payments to County employees and inaccurate reporting of payroll costs in the County's financial statements.

**Recommendation**

The Department of Finance should continue to implement and monitor the payroll process to ensure that accurate employee compensation expenditures are recorded in the County's general ledger. Monitoring activities include requiring explicit documentation evidencing supervisory reviews of time records prior to processing and periodic reviews of employee and departmental time sheets at the departmental level.

**2014-002    Internal Controls Over Payroll System Historical Edits - Significant Deficiency**

**Condition:** Corrections to the standard payroll processing system made throughout the fiscal year are referred to as historical edits, which is essentially an override mechanism used to correct employee time records for a pay period that has been locked out by the Payroll Section. During our current year audit, we noted the following:

- There were 2 instances (out of 60 samples) where a historical edit completed did not have an approval by an authorized individual.

During our fieldwork, we were informed that the Department of Finance distributed and published a new payroll policies and procedures manual on the intranet effective June 1, 2014. This manual indicates the roles and responsibilities of the Department and employees, required forms to be used and procedures to be followed with regards to payroll historical edits.

**Criteria:** The ability to make corrections to the standard payroll processing should be well controlled, and transactions recorded through this edit process should be properly documented and authorized. Access to this transaction edit process should be limited to personnel in the Payroll Section and a limited number of personnel at the various County departments.

**Cause:** During the year, the County did not have an established uniform policy over the processing of payroll historical edits.

**Effect:** Although the vast majority of transactions recorded via payroll historical edits is small and immaterial to total payroll expenditures, the lack of internal controls and established policy over this portion of the payroll processing system could lead to incorrect payments to County employees and inaccurate reporting of payroll costs in the County's financial statements.

**Recommendation**

The Payroll Section should continue to implement and monitor the use of payroll historical edits on the payroll process and ascertain that all authorizations are properly obtained and documented.

**2014-003 Timely Reconciliation of Federal and State Grant Programs - Significant Deficiency**

**Condition:** The Department of Finance continues to research, reconcile and dispose of unreconciled balances; however, significant reconciling items and unrelieved balances within the Grant Fund still exist as of June 30, 2014. During the current year audit, we noted the following:

- There were 2 instances where prior year deferred grant revenues totaling \$303,770 did not reflect any current year activity as the departments handling the grant were still investigating the proper method to address the amounts.

**Criteria:** Accrual balances presented in the Grant Fund balance sheet should reflect the amount of unreimbursed grant expenditures (grant receivables) or the amount of grant funds received in advance (deferred grant revenue). Reconciliations of these balances should be performed on a monthly basis.

**Cause:** There does not appear to be a uniform reconciliation process between the Department of Finance personnel and grant management personnel in the other County departments to ensure the periodic and timely reconciliation of grant receivables and deferred grant revenues.

**Effect:** The lack of timely reconciliations performed on the Grant Fund accrual balances could lead to misstatements in the County's financial statements.

**Recommendation**

The County has implemented mitigating controls such as a periodic reconciliation of federal and state grants. However, old grants and prior year grant receivables and deferred grant revenues remain and continue to carry forward as there is no specific federal program compliance officer and compliance responsibilities are being handled at the departmental level. The County should implement policies and procedures to complete monthly or quarterly reconciliations and monitoring of federal and state grants.

**2014-004    Internal Controls Over Miscellaneous Cash Receipts - Significant Deficiency**

**Condition:** During our audit, we noted that the internal controls over miscellaneous cash receipts collected by the various divisions and departments of the County could be improved. There was a lack of adequate segregation of duties over cash receipts, particularly at Building Permits and Parks and Recreation, between employees responsible for receiving the cash from the public and recording the cash transaction into the daily cash summary report and reconciling this summary report to the daily bank deposit.

**Criteria:** Proper internal controls over miscellaneous cash receipts received directly from the public dictate that adequate segregation of duties exist to ensure that an employee receiving cash is not the same employee that records the receipt transaction into the accounting records and reconciles the cash deposited into the bank. Evidence of this segregation of accounting duties and the appropriate level of supervisory review should be reflected on the daily cash receipt summary report in the form of sign offs by personnel involved.

**Cause:** Policies and procedures to enhance the segregation of duties over cash receipts have not been maintained.

**Effect:** The lack of adequate internal controls over miscellaneous cash receipts could result in a loss of revenues to the County.

**Recommendation**

Adequate internal controls should be maintained to ensure that adequate segregation of duties exist and that miscellaneous cash receipts are accurately collected, deposited and recorded in the County's general ledger. Evidence of the performance and review of the various employees should be documented on daily cash summary reports in the form of sign offs by personnel involved.

**2014-005 Accounting for Construction Work in Progress - Significant Deficiency**

**Condition:** The County and the Department of Water Supply (DWS) prepared construction work in progress schedules to calculate the valid roll-forward balance of on-going projects and determine projects that were completed, placed into service, and capitalized as infrastructure. We noted that projects were only properly accounted for when fiscal staff tracked down the respective project engineer for the contract. This resulted in multiple instances where a project was not capitalized properly or timely and old projects that should have been expensed were part of the roll-forward balance from prior years. The following were the conditions noted during our review of the construction work in progress schedules:

- The County had a total of \$92 million in construction in progress carried forward from the prior year. In the current year, a review of the construction in progress projects of the County showed a total of \$3,016,648 of maintenance and repairs expense on various projects that were included in the construction in progress balance that should have been expensed in the prior year. These amounts were expensed in the current fiscal year.
- The DWS had a total of \$32.6 million in construction in progress carried forward from the prior year. In the current year, we noted a total of \$970,702 of current construction in progress that should have been transferred out and capitalized as capital assets in the prior years. The DWS will adjust these projects in the next fiscal year.

**Criteria:** Generally accepted accounting principles require that assets be transferred from construction work in progress to capital assets when they are placed in service or are available to be placed in service. In addition, the County's accounting policy for normal maintenance and repairs is to expense these to operations as incurred.

**Cause:** The County's projects are maintained and accumulated in the County's accounting system and reconciled in a spreadsheet. However, the process to review these projects to either expense the normal maintenance and repairs or to transfer the project capital assets is a manual process. The current process is to review and reconcile the construction in progress balance at year end.

**Effect:** Construction work in progress was overstated, while capital assets, accumulated depreciation, and depreciation expense were understated.

(Continued)**

**Recommendation**

The County and the DWS should establish formal procedures to ensure that construction work in progress and projects placed in service are communicated timely by project engineers to the fiscal staff in order to properly capitalize and depreciate those assets in the appropriate accounting period. The County should also establish procedures to maintain and reconcile the construction in progress schedule throughout the year. These procedures will also assist the County in completing the schedules required to timely close and prepare the County's comprehensive annual financial report.

**2014-006**    **Timely Preparation of the Comprehensive Annual Financial Report - Significant Deficiency**

**Condition:** The Department of Finance experienced a high degree of turnover in the prior year. During the current year, although there was improvement in the timing of completing the various schedules, there were other issues, including the implementation of new accounting standards and accounting for the other post-employment benefits that arose that caused the delay in issuance of the County's financial statements.

**Criteria:** The Department of Finance should prepare and issue the County's comprehensive annual financial report on a timely basis for review by the County Council and the general public.

**Cause:** The Department of Finance had a high degree of turnover in the prior year and was able to hire well qualified staff to replace the personnel; however the experience lost is difficult to replace. Additionally, without the centralized position for oversight of the County's federal programs, the Department of Finance personnel must also assist with the audit of the federal awards programs during the preparation of the County's comprehensive annual financial report.

**Effect:** The Department of Finance experienced delays in closing the County's financial records and preparation of required audit schedules, analyses, footnotes and reports. The Department of Finance personnel worked many hours of overtime to accomplish this year's closing.

**Recommendation**

The Department of Finance should continue its efforts to ensure that sufficient, experienced accounting personnel are available to prepare and issue the County's comprehensive annual financial report in a timely manner. In addition, the County and Department of Finance should determine whether the Department has adequate staffing necessary to complete the required audit schedules, analyses, footnotes and reports along with performing the regular daily workload of the current personnel.

**2014-007    Review Agency Fund Accounts - Material Weakness**

**Condition:** During our audit, we noted that the County had agency funds that were not reviewed on an on-going basis. We noted certain balances from prior years that were either unsupported or the County did not know the current status of the monies held.

**Criteria:** The County maintains fiduciary funds that are limited to agency funds. Agency funds are custodial in nature and are used to receive and disburse funds for an entity or individual that is not part of the County. Agency funds function as a clearing account and do not measure results of operations. Balances should be reviewed periodically and be properly supported of amounts held for individuals and entities.

**Cause:** There does not appear to be consistent policies and procedures across departments handling the agency funds to properly and timely reconcile balances and investigate differences.

**Effect:** The County has the following agency funds:

- Refundable Deposits Fund
- Liquor Control Fund
- State Highways Fund
- Other Agency Funds

At June 30, 2014, the County has approximately \$34.2 million in these agency funds. We reviewed these held balances noting the following:

- Real Property Tax Litigated Claims Fund - The County transferred \$849,545 from the account balance that has accumulated over the years to the general fund. The adjusted and reconciled balance at June 30, 2014 was \$4,413,880.
- Parks and Recreation Trust - The County was unable to provide a listing of who the deposits were held for in this account. As of June 30, 2014 the balance in this account was \$383,374.
- Planning Application Fees - In September 2014, the County transferred approximately \$3.6 million related to application fees that had accumulated in this fund from fiscal year 2002. The fees being collected should have been recognized as revenues and a prior period adjustment was made to the financial statements to account for this error.

**Recommendation**

We recommend that the County implement procedures to timely review and reconcile these trust and agency funds. Within these procedures the County should require that any unreconciled differences or older outstanding balances are reviewed and properly disposed of. The County should also review the use of all agency fund accounts and ensure that agency funds established are custodial in nature and are being used to receive and disburse funds for an entity or individual that is not part of the County.

**2014-008    Logical Access & Access Security - Significant Deficiency**

**Condition:** During our audit, we noted that the County had several deficiencies related to logical access and access security including:

- User access reviews are not performed on the global security groups assigned to domain users and Integrated Financial and Administrative Solution (IFAS).
- User access reviews for iasWorld (IAS) are infrequent.
- Permissions assigned to Oracle Utilities Customer Care and Billing System (CC&B) security groups were not reviewed.
- Outside vendor access into IAS is not monitored.
- The County does not have a formal password policy established.
- There is weak password security for the domain, IAS, IFAS and CC&B.
- The County did not have any formally documented security administration policies and procedures.
- There are no formal written policies and procedures surrounding changes to the firewall settings.

**Criteria:** A control process exists and is followed to periodically review and confirm access rights.

Procedures exist and are followed to authenticate all users of the system (both internal and external) to support the existence of transactions.

An information security policy exists and has been approved by an appropriate level of management.

A framework of security standards has been developed that supports the objectives of the security policy.

**Cause:** The County has not formally documented all of the Logical Access & Access Security controls nor effectively designed all of these controls.

**Effect:** Unauthorized access to these systems could result in the destruction of data, unauthorized transactions being made, transactions being inaccurately recorded, or internal controls being circumvented.

**2014-008 Logical Access & Access Security - Significant Deficiency (Continued)**

**Recommendation**

We recommend that the County:

1. Establish a control process in place to review and confirm access rights periodically. There should be at least a semiannual review of user access.
2. This review should include the following:
  - a. A report which includes a list of users and the security role assignments, department and accounts should be generated.
  - b. These reports should be forwarded to the respective departments for review.
  - c. Each of the department heads or business managers should review the list and note/highlight any discrepancies.
  - d. The updated lists should be sent to Finance for approval.
  - e. All changes should be documented by completion of a Network Access Security Form.
3. Monitor vendor access into IAS.
4. Develop formal password policies and procedures and strengthen password controls including a combination of minimum length, complexity, expiration, history, and lockout policy and duration.
5. Develop an information security policy, have the policy approved by the appropriate level of management and communicate the policy to employees.

**2014-009    Backup & Recovery - Significant Deficiency**

**Condition:** During our audit, we noted that the County:

- Did not have any formally documented backup and restore policies;
- Has not completed appropriate recovery procedures; and
- Is using some backup software that is no longer supported by the manufacturer.

**Criteria:** Policies and procedures exist for data backup and recovery.

The restoration of backup media is periodically tested.

**Cause:** The County has not formally documented the backup and restore policies and procedures.

**Effect:** Data recorded, processed and reported may not remain complete, accurate and valid throughout the update and storage process. There may be an inability to correct or recover from data loss, corruption, or data integrity concerns.

**Recommendation**

We recommend that the County develop a formal backup and restore policy, have the policy approved by the appropriate level of management and communicate the policy to employees. Additionally, the County should perform formal system restoration testing.

**2014-010    IAS Program Changes & Development - Significant Deficiency**

**Condition:** During our audit, we noted that changes to the IAS system are not following a structured change management process. Changes are made to IAS production without being thoroughly tested.

**Criteria:** Requests for program changes, system changes and maintenance (including changes to system software) are standardized, logged, approved, documented and subject to formal change management procedures.

Controls are in place to restrict migration of programs to production by authorized individuals only.

**Cause:** The Change policy modeled after Information Technology Service Management (ITSM) is not being appropriately followed by the IAS consultant.

**Effect:** Unauthorized or untested changes promoted to the production environment could cause the financial system to either process data differently than intended or unexpectedly compromise the integrity of the data maintained.

**Recommendation**

We recommend that the County ensure change management policies and procedures are consistently followed.

**2014-011 Information Technology (IT) Governance - Significant Deficiency**

**Condition:** During our audit, we noted that the County had several deficiencies related to IT Governance including:

- The IT Governance function needs to be formalized including a process for review of IT plans and priorities and significant IT related projects and investments.
- An IT Risk Assessment and fraud related assessment need to be completed.

**Criteria:** The organization maintains an appropriate strategic technology plan including capacity planning and availability requirements to meet the needs of the business units and to adequately support financial reporting.

Effective IT governance helps ensure that IT supports business goals, optimizes business investment in IT, and appropriately manages IT-related risks and opportunities.

Risk management practices enable management to limit exposures to control failures.

**Cause:** The County has not formally documented IT Governance policies and procedures.

**Effect:** Lack of business monitoring and strategic planning may cause the organization to not be responsive to changes that may affect continuity and quality of service.

Lack of risk management practices will limit management's ability to reduce exposures and control failures.

**Recommendation**

We recommend that the County hold formal steering committee meetings and complete an IT Risk Assessment and fraud related assessment.

<b>Condition:</b>	<p>During our audit, we were provided the SEFA on a timely basis. However, we noted expenditures for Federal awards for CFDA 20.500 that were recorded as CFDA 20.509 and expenditures for CFDA 66.458 were not properly included in the SEFA. In addition, pass-through awards did not include the identifying number assigned by the pass-through entity.</p>

<b>2014-013</b>	<b>Centralized Position to Monitor Federal Program Compliance - Significant Deficiency</b>	
<b>Condition:</b>	During our audit, we noted that the County expended over \$61.3 million under numerous federal financial assistance programs. We noted that the responsibilities of a federal program compliance officer do not appear to be assigned to any current position within the County government.	
<b>Criteria:</b>	OMB Circular A-133 suggests that a centralized position be established for any local government receiving federal financial assistance to oversee that government's compliance with federal program requirements.	
<b>Cause:</b>	The responsibility of overseeing the County's compliance with federal program requirements is being delegated to the departmental level.	
<b>Effect:</b>	Without the proper oversight and monitoring, the County has the potential for instances where the County does not comply with certain federal program compliance requirements for major programs.	\$ <u>          --</u>
<b>Recommendation:</b>	The County should establish a centralized position charged with overseeing the County's compliance with federal award program requirements. That centralized position would coordinate with the departmental program managers to ensure that the County is complying with federal program requirements.

**SINGLE AUDIT REPORTS**  
**Corrected Action status for Fiscal 2014 Audit**  
**June 30, 2014**

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-001 - Internal Controls Over Automated Payroll Processing System**

**Recommendation**

The Department of Finance should continue to implement and monitor the payroll process to ensure that accurate employee compensation expenditures are recorded in the County's general ledger. Monitoring activities include requiring explicit documentation evidencing supervisory reviews of time records prior to processing and periodic reviews of employee and departmental time sheets at the departmental level.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with the finding. In an effort to establish a more uniform system of internal controls over the submission, review, and approval of employee time records, the Department of Finance has implemented regular training meetings with each department's ADP e-Time users. The Payroll Section is actively working with all departments to develop improved procedures for greater consistency in capturing employee time, as well as reviewing and approving payroll time records. In June 2014, the Finance Department has established a policy manual outlining standard payroll procedures and internal controls that should be applied by all departments. The departments are responsible for maintaining effective systems of monitoring the accuracy of its payroll process.

The Payroll Manager, under the Department of Finance continues to implement and monitor the payroll processes and holds quarterly "Super-Users" training meetings emphasizing time record submission, review, and approval.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-002 - Internal Controls Over Payroll System Historical Edits**

**Recommendation**

The Payroll Section should continue to implement and monitor the use of historical edits on the payroll process and ascertain that all authorizations are properly obtained and documented.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with the finding. The Payroll Section has developed procedures to establish stronger internal controls over the processing of payroll historical edits, including departmental supervisory review documentation. Although this function is already limited to certain authorized individuals and password protected, we will continue to work with all departments to reduce the amount of authorized individuals.

Under the direction of the Payroll Manager, the Payroll Accountant I continues to work directly with county departments and reviews the departmental payroll processing procedures including historical edits.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-003 - Timely Reconciliation of Federal and State Grant Programs**

**Recommendation**

The County has implemented mitigating controls such as a periodic reconciliation of federal and state grants. However, old grants and prior year grant receivables and deferred grant revenues remain and continue to carry forward as there is no specific federal program compliance officer and compliance responsibilities are being handled at the departmental level. The County should implement policies and procedures to complete monthly or quarterly reconciliations and monitoring of federal and state grants.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with the finding. A periodic reconciliation of federal and state grants is being implemented. We will continue to work with the respective grant managers to close old grants and resolve prior year grants receivable and deferred grant revenues.

Finance Department Accounting Supervisor Accountant V currently performs periodic reconciliation of federal and state grants with the assistance of the Accounts Section staff. All grants have been assigned to staff within the Accounts Division, General Ledger Section for review and reconciliation by March 31, 2015.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-004 - Internal Controls over Miscellaneous Cash Receipts**

**Recommendation**

Adequate internal controls should be maintained to ensure that adequate segregation of duties exist and that miscellaneous cash receipts are accurately collected, deposited and recorded in the County's general ledger. Evidence of the performance and review of the various employees should be documented on daily cash summary reports in the form of sign offs by personnel involved.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with the finding. The Department of Finance has recently drafted revised cash handling policies and procedures. The Treasury Division will be meeting with various departments to finalize and implement these policies and procedures.

The Department of Finance Treasurer is taking the lead in the County's cash handling internal controls, including miscellaneous cash receipts that is consistent at the countywide-level. The Treasurer is now monitoring the Cash Handling policies and procedures.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-005 - Accounting for Construction Work in Progress**

**Recommendation**

The County and the DWS should establish formal procedures to ensure that construction work in progress and projects placed in service are communicated timely by project engineers to the fiscal staff in order to properly capitalize and depreciate those assets in the appropriate accounting period. The County should also establish procedures to maintain and reconcile the construction in progress schedule throughout the year. These procedures will also assist the County in completing the schedules required to timely close and prepare the County's comprehensive annual financial report.

***Views of Responsible Officials and Planned Corrective Action***

Management agrees with the finding. The Finance Department will work with the County departments, including DWS to develop and establish policies and procedures to ensure that construction work in progress and projects place in service are communicated timely, and to maintain and reconcile the construction in progress schedule throughout the year.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-006 - Timely Preparation of the Comprehensive Annual Financial Report**

**Recommendation**

The Department of Finance should continue its efforts to ensure that sufficient, experienced accounting personnel are available to prepare and issue the County's comprehensive annual financial report in a timely manner. In addition, the County and Department of Finance should determine whether the Department has adequate staffing necessary to complete the required audit schedules, analyses, footnotes and reports along with performing the regular daily workload of the current personnel.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with the recommendations and will hire well qualified and experienced applicant for the Financial System Analyst position, Accountant III, and Payroll Clerk vacancies. Efforts are also underway to assure proper planning, preparation, and year end process improvements are in place for future financial reports.

The Director of Finance has proposed fiscal year 2016 budget expansion requests for staffing and compensation requirements for the Accounts Division, including a new county-wide Grant Manager position and a new position for a Capital Asset (CIP) Accountant, as well as professional fees for specialized assistance. The Accounts Administrator is currently holding training and planning meetings with accounting staff to prepare for the next audit.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-007 - Review Agency Fund Accounts**

**Recommendation**

We recommend that the County implement procedures to timely review and reconcile these trust and agency funds. Within these procedures the County should require that any unreconciled differences or older outstanding balances are reviewed and properly disposed of. The County should also review the use of all agency fund accounts and ensure that agency funds established are custodial in nature and are being used to receive and disburse funds for an entity or individual that is not part of the County.

***Views of Responsible Officials and Planned Corrective Action***

Management agrees with the finding and acknowledge that an adjustment was made to reclassify the Planning Fee deposits held in our Trust and Agency (T&A) account into the General fund for amounts representing an accumulation of prior year deposits.

T&A balances are not cleared through simple incident = release event. Rather, releases are dependent on other departments determining an old deposit is no longer under obligation (e.g. court case decision, liability release, decedent beneficiary documentation, etc.) We have met and communicated with T&A departments again on February 17, 2015 to remind them of their responsibility to clear T&A liabilities when release is needed. Departments were reminded of our recommendations for their periodic reconciliations of their inventory of T&A, to identify beneficiaries, and to process T&A releases at least quarterly. Our procedures from past years included reviewing T&A reports monthly and communicating with departments for reconciling and releasing discontinued liabilities. The Finance Department's Accounting Supervisor, Accountant V along with the Accountant II continue to resolve T&A balances.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**Ref. No. - Internal Control Findings**

**Finding 2014-008 - Logical Access & Access Security**

**Recommendation**

We recommend that the County:

1. Establish a control process in place to review and confirm access rights periodically. There should be at least a semiannual review of user access.
2. This review should include the following:
  - a. A report which includes a list of users and the security role assignments, department and accounts should be generated.
  - b. These reports should be forwarded to the respective departments for review.
  - c. Each of the department heads or business managers should review the list and note/highlight any discrepancies.
  - d. The updated lists should be sent to Finance for approval.
  - e. All changes should be documented by completion of a Network Access Security Form.
3. Monitor vendor access into IAS.
4. Develop formal password policies and procedures and strengthen password controls including a combination of minimum length, complexity, expiration, history, and lockout policy and duration.
5. Develop an information security policy, have the policy approved by the appropriate level of management and communicate the policy to employees.

**SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

**Ref. No. - Internal Control Findings**

**Finding 2014-012 - Completeness and Accuracy of the County's Schedule of Expenditures of Federal Awards (SEFA)**

**Recommendation**

We recommend that the County establish policies and procedures to ensure the proper set up of Federal awards in the accounting system. In addition, we recommend that each award be tracked separately for accuracy, easier accountability of all awards and completeness of the SEFA.

***Views of Responsible Officials and Planned Corrective Action***

Management agrees with the finding and understands the critical nature of the SEFA Schedule completeness and accuracy. We have implemented procedures to review and track each award separately to ensure easier accountability of all awards and completeness of the SEFA.

Management agrees with the finding that certain program managers should improve their understanding of amounts that should be reported as Federal expenditures for their respective grants. As in prior years, the County arranged for training of many department personnel by the awarding Federal agencies. The County will continue to coordinate the implementation of training in future years.

The Accounting Administrator will coordinate with County departments training updates and along with the Accountant V and staff will review award accountability and SEFA completeness.

**SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

**Ref. No. - Internal Control Findings**

**Finding 2014-013 - Centralized Position to Monitor Federal Program Compliance**

**Recommendation:**

The County should establish a centralized position charged with overseeing the County's compliance with federal award program requirements. That centralized position would coordinate with the departmental program managers to ensure that the County is complying with federal program requirements.

***Views of Responsible Officials and Planned Corrective Action***

Management concurs with this recommendation. However, establishing a centralized position requires an additional employee position, which is subject to Mayor and County Council approval.

The Finance Director has included in the Finance Department budget expansion, a request for the recommended Grant Manager position in the fiscal year 2015 mayor's budget proposal; however, this expansion request has been denied. Similar to previous year's expansion request for the Grant Manager position, the Department of Finance will submit this request for further consideration in the fiscal year 2016 budget proposal. Should the fiscal year 2016 budget be approved, the position is anticipated to be filled by October 31, 2015.
