Subject: West Maui Third Saturday Recycling

I am writing in behalf of the Go Green Third Saturday recycling program on West Maui. What a wonderful and convenient way to take our recyclables. Please consider this to be an on-going program for our side of the island.

Dear Council Members,

I'm writing to ask that you include funding for the Third Saturday Recycling Program in Lahaina in the upcoming fiscal year budget.

The Rotary Club of Lahaina Sunset, with funding from Maui County, partnerships with Malama Maui Nui and local business 5A Rent a Space, began the program in July. Held monthly at Lahaina Cannery Mall parking lot, the project has collected over 69,000 pounds of scrap metal and recyclable materials. The e-waste, including televisions and computers has been equally impressive with over 1,000 pieces collected in eight months.

Without this program, these materials would end up in our island's landfills and in many cases, our neighborhoods and valleys.

As Public Relations Director for the Rotary club, I have had the opportunity to interview community members and the dedicated volunteers who participate in this program and have heard firsthand what it means to them. It really is making a difference in West Maui and I encourage you to continue your support for this important project.

Thank you,

Melissa Crawley

Director, Public Relations

Subject: "Go Green Third Saturday Recycling"- Lahaina Cannery Mall

Aloha,

Mahalo for supporting the "Go Green Third Saturday Recycling" @ The Lahaina Cannery Mall. It has been a wonderful service for those who live on the Westside and want to malama the aina. Please support the continuation of this program beyond June 2016 and provide funding which may be necessary. We live on a beautiful and fragile island with limited resources. Environmental protections should be one of the top issues on the administration's list of priorities. Encouraging recycling and alternative disposal is important because our landfill will soon fill-up and what will we do then?

Mahalo for your consideration.

Aloha BF Committee,

I have been writing for years and attending meetings and met with the mayor and I still do not see that the sidewalk between Haiku School and Haiku town will be repaired any time in the near future. It is a safety hazard and so many people of all ages use it daily to walk to and from school, to get exercise...I know you had put aside money last year for the Safe Sidewalks to School for Paia. Can you please do this for Haiku this year? This is really the only sidewalk in Haiku to walk and not get muddy and actually be off the road (except on the parts that are falling apart and you have to step into the street. Please see the attached photos and feel free to call me if you have any questions.

Mahalo,

Paula Phillips

Aloha,
Thank you for your input. A photo would be good. It will be shared with pertinent County officials.
Mahalo,
Budget Office

Aloha Budget Finance Committee,

I testified at your last meeting in Haiku regarding repairing the sidewalk from Haiku Community Center School to Haiku Road. It is quite dangerous and many people use

this sidewalk daily for walking to and from the school and youth center, exercising and walking to the bus stop. I have been asking for this repair for years and still nothing is done.

If you would like photos of how bad this is I can resend them to you as I have sent them in the past.

I will not be able to attend the meeting tonight but please allot the money for this in the upcoming budget.

Mahalo,
Paula

Subject: Proposed Budget

Aloha Council Members,

I respectfully ask that you include funding for the Go Green Third Saturday Recycling Program in Lahaina in the upcoming fiscal year budget.

You may not be familiar with the small but mighty Rotary Club of Lahaina Sunset. We are a group of westside leaders who assembled officially just over a year and a half ago. With a focus on community service, we set our sights on taking action to "Go Green and Keep Our Island Clean". With funding from Maui County, we partnered with Malama Maui Nui to launch a monthly recycling program for westside residents. Beginning last July, we've held a recycling event at the convenient Lahaina Cannery Mall parking lot from 8 am – noon on the third Saturday of the month. We collect general recyclables (e.g., aluminum cans, plastic bottles, newspaper, cardboard, glass bottles) along with more significant recyclables like appliances and scrap metal.

I'd like to share with you some results from this program. In the first 8 months of the program, we've recycled over:

- 400 Household appliances, including 140 refrigerators and 87 air conditioners
- 51,000 pounds of scrap metal
- 17,000 pounds of general recyclables
- 3,000 batteries and
- 1,000 pieces of e-waste, like old televisions and computers

We know that these recyclables have been sitting in community members' homes, in their yards and in some cases on neighborhood streets, in our valleys and over cliffs. We are working hard to remove this waste from our community and avoid the landfill.

The success of this recycling program is due to our dedicated volunteers, solid community partnerships and critical funding from Maui County. The Go Green Third Saturday Recycling Program is making a difference in West Maui. Thank you for your ongoing support of this program.

Sandy Schneider

2015-2016 President
Rotary Club of Lahaina Sunset
